PROFESSIONAL SUMMARY

Cybersecurity-focused B.Sc. Information Technology student (3rd year) with hands-on exposure to security analysis and penetration testing fundamentals, including vulnerability assessment, network security, and threat detection. Skilled in using industry-standard tools for reconnaissance, scanning, and exploitation in controlled lab environments. And basic incident response. Eager to apply analytical and problem-solving skills in a real-world SOC or pentesting role

EDUCATION

B.Sc Information Technology With Cyber Security

2024 – 2027

Jamal Mohamed College / Affiliated To Bharadhidasan University / Trichy, TamilNadu

- CGPA: 6.60 / 10 — Relevant coursework: Data Structure, Cryptography, Ethical Hacking, Digital Forensics, OS & Networks

Higher Secondary (Class XII) — Computer Science

2023 – 2024

Punitha Arockia Annai Higher Secondary School, TamilNadu State Board

ACADEMIC & LAB PROJECTS

Home SOC Lab — SIEM Log Monitoring & Alerting

- Built a virtual SOC environment using Splunk / Wazuh to ingest logs from Windows and Linux endpoints, firewalls, and a honeypot.
- Created custom correlation rules and dashboards to detect brute-force login attempts, port scans, and malware beaconing.

Tools: Splunk, Wazuh, VMware, VirtualBox, Kali Linux, Ubuntu

Phishing Email & Header Analysis Toolkit

- Developed a Python script to parse email headers, extract IOCs, and flag spoofed sender domains.
- Cross-referenced extracted IOCs (IPs, URLs, hashes) against VirusTotal API for automated reputation scoring.

Tools: Python, VirusTotal API

Network Vulnerability Assessment — Simulated Enterprise Network

- Performed reconnaissance and vulnerability scanning on a lab network using Nmap and Nessus; identified 20+ misconfigurations.
- Authored a formal vulnerability assessment report with CVSS scoring and remediation recommendations.

Tools: Nmap, Nessus, Metasploit, Wireshark

ACHIEVEMENTS & EXTRACURRICULAR

★Ranked in Top 9% on TryHackMe "SOC Level 1" learning path (50+ rooms completed globally).

★Finalist, Inter-College Capture the Flag (CTF) Competition, 2025.

★Active member of College Cybersecurity Club — organized 2 workshops on phishing awareness.

★I have participated in the world record.

★I have done some of the challenges in TryHackMe, HackTheBox.

★Won the best photographer award in 2023.

★Good team player and ability to work well ahead of schedule.
